EJA Vantage Touch Screen Instrument Controller

**Select Your Screen
7" or 10"
Nexus® Tablet**

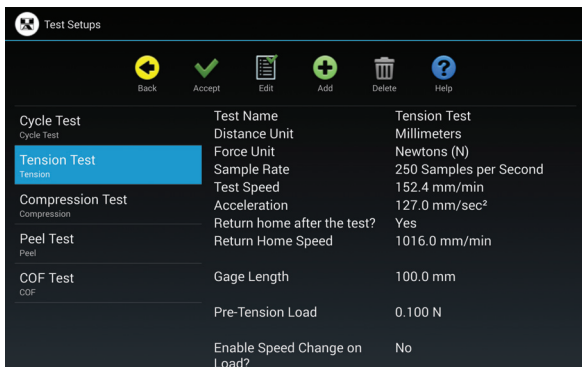

You choose the option to control the EJA Vantage using a touch screen tablet that is connected to a built-in Bluetooth system. Run basic test functions with the touch of your fingertips.

- Designed for **quick and easy testing**
- **NO PC needed** to run tests
- Minimal operator training required
- Two screen size options - you choose: 7" or 10"
- Ready to test:
Tensile, Peel, Compression, COF
- Easily modify test parameters
- Automatic load cell recognition
- Bluetooth communication
- Network printer support

Simplified Testing at your Fingertips.

The touch screen instrument controller provides a simple, stand-alone version of the EJA Vantage Series Universal Testing Machine. Now there is a simplified way to run tensile tests, peel tests, compression tests, and COF tests without the need for a computer. Using a touch screen tablet that is connected to a built-in Bluetooth system, technicians can run basic test functions with the touch of their fingertips.

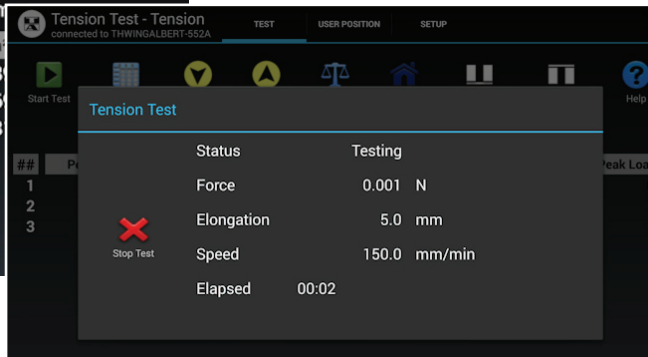

▲ Select a test to perform and adjust settings.

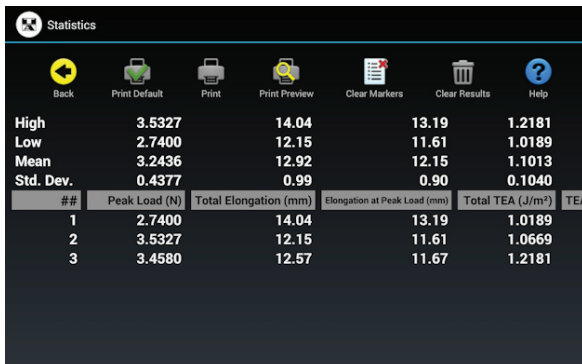

▲ Connect to a network printer via WiFi.

▼ Once a test starts, real-time test information and a stop test button will be displayed.

▲ Move the crosshead position and grips from the main screen. View recent test results and access statistics.

▲ Review statistics and generate printable reports.

▲ Reports can be printed via WiFi-connected network printer.
